Zhang, C., Heiselberg, P., Pomianowski, M. The effect of diffuse ceiling panel on the energy performance of Thermally Activated Building Constructions. Accepted for IAQVEC 2016, 9th International Conference on Indoor Air Quality Ventilation & Energy Conservation In Build-ings, October 23-26, 2016, Seoul, South Korea.

**Masterprojektrapper offentliggjort på AAUs hjemmeside over studenterprojekter:**

Analyse og evaluering af luftstrømninger og indeklima ved brug af termoaktive konstruktioner. Anne Sofie Palle og Lise Meflergaard Jensen. Aalborg Universitet, Juni 2013.

Analyse af styringsstrategier ved anvendelse af termoaktive dækelementer. Camilla Højgaard Hansen, Tina Østergaard Strømkjær. Aalborg Universitet, Juni 2013.

Diffuse Ceiling Ventilation in Danish Classrooms. Martin Heine Kristensen & Jakob Søland Jensen, Aalborg Universitet, June 2015

**PhD Afhandlinger:**

Tao Yu. Thesis title: Energy Performance of a Novel System Combining Natural Ventilation with Diffuse Ceiling Inlet and Thermally Activated Building Systems (TABS). 2015

Chen Zhang. Thesis title: Diffuse Ceiling Ventilation -Air Distribution and Thermal Comfort. 2016
